

2015 Quantum Body Scanner Analyzer

Introduction

Quantum resonance magnetic analyzer involves high-tech innovation projects of medicine, bio-informatics, electrical engineering and other sciences. Using the quantum medicine as the theoretical basis, it applies the advanced electronic equipment to collect the weak magnetic field of human cells for scientific analysis, thereby analyzing and determining the tested person's health status and main problems. Prevention recommendations can be made based on the test reports. Quantum Health Analyzer is an instrument designed to check health and sub-health in a swift and non-invasive way. It has the advantages of completeness, practicality, simplicity, fastness, economy, easy popularization, etc. With the depth and development of scientific research, it will make a greater contribution for the cause of human health, having a broad development and application prospect.

Feature

Professional	Many medical experts spent many years studying a large number of cases and invented this instrument. A lack of energy in the meridians over a long time will lead to organic and even psychological discomfort. With the help of this instrument, it's possible to detect deficiencies before symptoms start to appear. Plus, health care suggestion can be given for necessary treatment. Similar system has been in use for Russian astronauts for over 15 years.
Comprehensive	Our quantum health analyzer can make a comprehensive examination to human body. 41 reports can be obtained.
Accurate	The statistical analysis of health is carried out rigorously by using scientific methods and it is approved by a large number of clinical practices. The accuracy rate of this healthcare product can reach up to 90%.
Ahead	Our quantum health analyzer can detect health changes before obvious symptoms and signs of disease appear. The early detection will make for early treatment
	The operation of this healthcare equipment is quite easy.

The Latest Reports

1. Cardiovascular and Cerebrovascular	22. Heavy Metal
2. Gastrointestinal Function	23. Basic Physical Quality
3. Liver Function	24. Allergy
4. Large Intestine Function	25. Obesity
5. Gallbladder Function	26. Skin
6. Pancreatic Function	27. Eye
7. Kidney Function	28. Collagen
8. Lung Function	29. Channels and collaterals
9. Brain Nerve	30. Pulse of heart and brain
10. Bone Disease	31. Blood lipids
11. Bone Mineral Density	32. Gynecology (female)
12. Rheumatoid Bone Disease	33. Breast (female)
13. Bone Growth Index	34. Menstrual cycle (female)
14. Blood Sugar	35. Prostate (male)
15. Trace Element	36. Male Sexual Function (male)
16. Vitamin	37. Sperm and semen (male)
17. Amino Acid	38. Element of Human
18. Coenzyme	39. Thyroid
19. Endocrine System	40. ADHD
20. Immune System	41. Comprehensive Report
21. Human Toxin
